MEMORANDUM FOR: CIA Member, Imagery Collection Requirements, Subcommittee

SUBJECT : Request for Photographic Coverage of Selected Sites on the Great Lakes

REFERENCE : Your Working Paper, Same Subject, dated 23 April 1974

1. Our present operational commitments dictate that we defer evaluation of your requirement until approximately 5 June 1974. Your collection requirement will be evaluated at that time in conjunction with other priority commitments and could possibly be scheduled on a non-interference basis. You will be advised of our decision.

2. We would plan to use the DELTA camera to obtain [redacted] imagery unless tasked differently by your office.

3. Please provide titling, shipping, and processing instructions for exposed materials. Also, provide any pertinent flight parameters such as altitude and minimum sun angle.
